In the three decades since the Iron Curtain fell, Central and Eastern Europe has made remarkable progress in many areas. Democratic institutions have taken root, free markets have flourished, and the region has integrated with Western institutions such as the European Union and NATO.

However, the transition has not been without its challenges. The collapse of communism led to widespread economic disruption and social upheaval.

Many countries in the region struggled with high unemployment, inflation, and corruption.

In addition, the end of the Cold War led to a new set of security challenges for Central and Eastern Europe. The region has been plagued by ethnic conflicts, territorial disputes, and the rise of authoritarian regimes.
