Audience

This atlas is intended for surgeons at all levels of experience, from residents to experienced surgeons. It is an ideal resource for anyone who wants to learn more about male genitourethral surgery.

Author

The atlas is written by a team of experienced surgeons, including:

- **Dr. John P. Mulcahy**, Associate Professor of Urology, University of California, San Francisco
- **Dr. David B. Levy**, Assistant Professor of Urology, University of California, San Francisco

- **Dr. Kevin R. Loughlin**, Associate Professor of Urology, University of California, San Francisco

Reviews

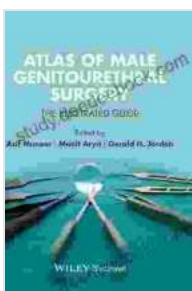

"This atlas is a comprehensive and well-written guide to male genitourethral surgery. It is richly illustrated with high-quality photographs and diagrams, and the text is clear and concise. This atlas is an invaluable resource for surgeons at all levels of experience." - **Dr. James E. Montie**, Professor of Urology, University of California, San Francisco

"This atlas is a must-have for any surgeon who performs male genitourethral surgery. It is a comprehensive and well-organized guide to all aspects of this complex field. The illustrations are superb, and the text is clear and easy to follow. This atlas is an essential resource for any surgeon who wants to stay up-to-date on the latest techniques in male genitourethral surgery." - **Dr. Andrew C. Novick**, Professor of Urology, Johns Hopkins University
