## Choosing the Right Materials

The first step to starting a counted cross stitch project is choosing the right materials. You'll need:

- **Aida cloth:** This is the fabric that you'll stitch on. It's available in a variety of counts, which refers to the number of holes per inch. For beginners, we recommend using 14-count Aida cloth.
- **Embroidery floss:** This is the thread that you'll use to stitch with. It's available in a wide variety of colors, so you can choose the perfect shades for your project.
- **A needle:** This is the tool that you'll use to stitch with. It's important to use a needle that is the right size for the Aida cloth you're using.
- **Scissors:** These are for cutting the embroidery floss.

## Getting Started

Once you have your materials, you're ready to start stitching! Here are the basic steps:

1.

**Choose a pattern.** There are countless cross stitch patterns available online and in craft stores. You can find patterns for everything from simple designs to complex masterpieces. For beginners, we recommend starting with a small, simple pattern.

2.

**Prepare your fabric.** Cut a piece of Aida cloth that is at least 4 inches larger than the finished size of your project. Center the pattern on the fabric and secure it with masking tape.

3.

**Thread your needle.** Cut a piece of embroidery floss about 18 inches long. Thread the needle and tie a knot in the end of the floss.

4.

**Start stitching!** Find the center of the pattern and start stitching. Follow the pattern carefully, and be sure to stitch over two strands of Aida cloth each time.

5.

**Finish your project.** Once you've stitched the entire design, you're ready to finish your project. Trim any excess fabric around the edges, and then wash and iron your finished piece.

### **Tips for Beginners**

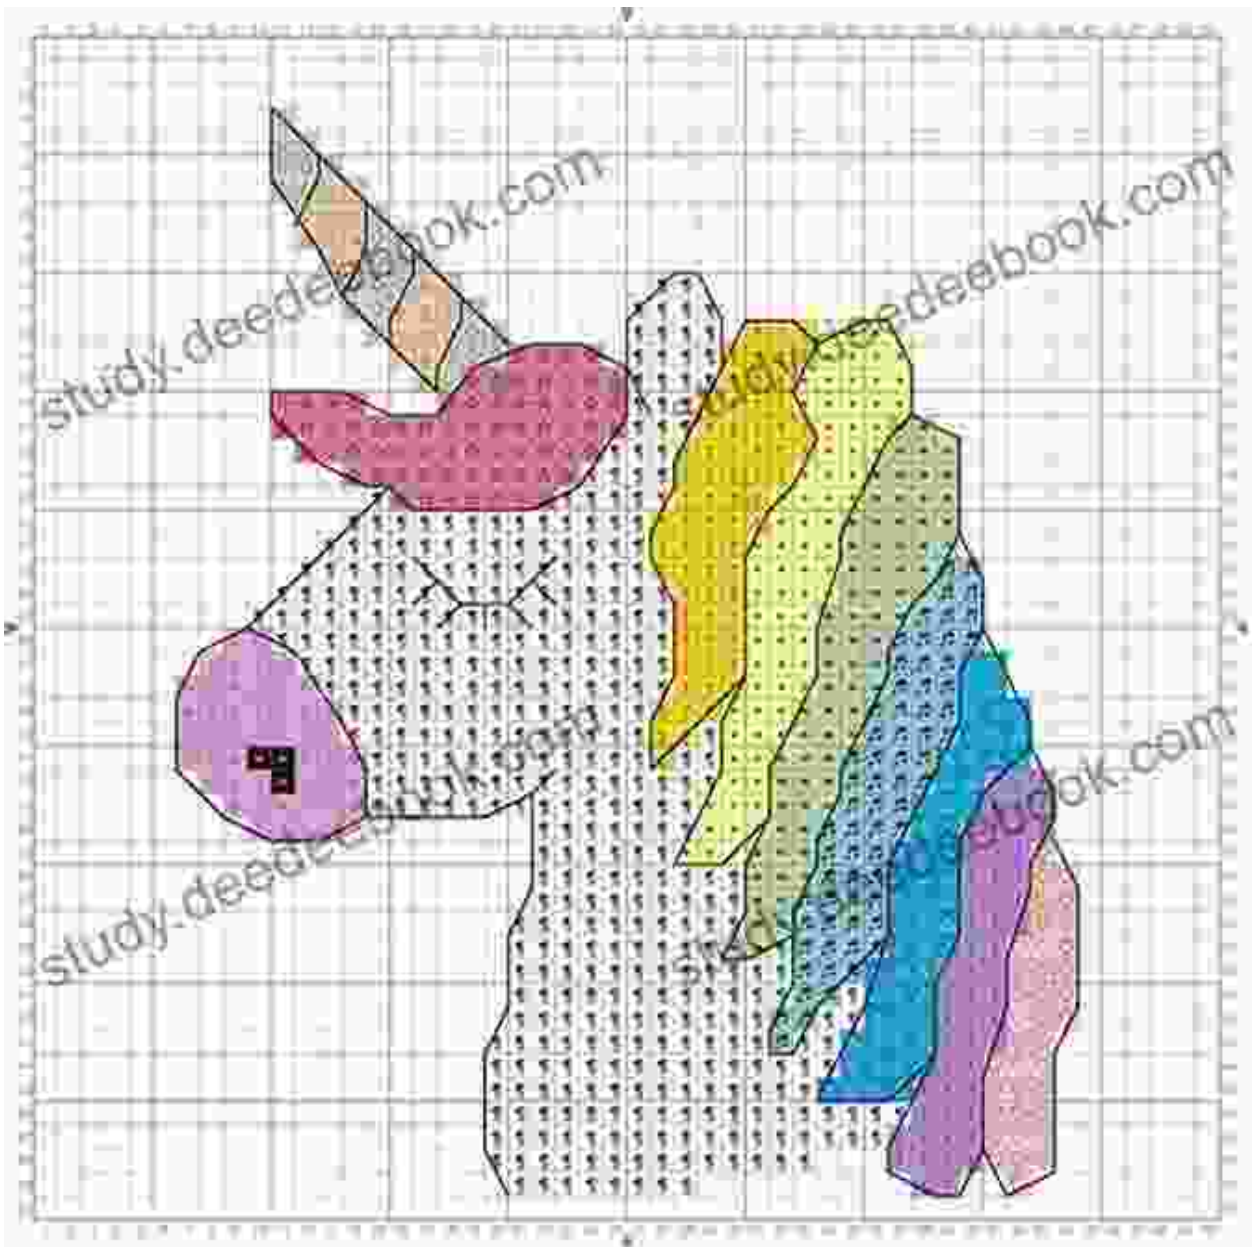

- **Don't be afraid to make mistakes.** Everyone makes mistakes when they're first learning how to cross stitch. Just relax and keep stitching, and you'll eventually get the hang of it.
- **Use a magnifying glass if you need to.** If you have trouble seeing the holes in the Aida cloth, use a magnifying glass to help you. This will make it easier to stitch accurately.
- **Take breaks.** Don't try to stitch for hours on end. Take breaks as needed to rest your eyes and your hands.
- **Have fun!** Cross stitch is a great way to relax and de-stress. So enjoy the process, and don't worry about making it perfect.
