#### **How Sister Sarah's Pick Big VIP System Works**

Sister Sarah's Pick Big VIP System is based on years of research and analysis. This system uses a unique combination of mathematics and intuition to identify the numbers that are most likely to be drawn.

The first step in the system is to generate a set of lottery numbers. Sister Sarah uses a proprietary algorithm to generate these numbers, which are based on a variety of factors, including past winning numbers, current lottery trends, and astrological influences.

Once a set of numbers has been generated, Sister Sarah uses her intuition to select the numbers that she believes are most likely to be drawn. This is where Sister Sarah's years of experience come into play. She has a unique ability to identify the numbers that are most likely to win.

Once Sister Sarah has selected her winning numbers, she shares them with her VIP members. These members then have the opportunity to play these numbers in the lottery.
